Company Overview

We started Aracruz International Granite in 2001 as a supplier of granite slab containers from Brazil for wholesale distributors and large fabricators in the USA and Canada. In 2003, we opened a warehouse and showroom in Phoenix to better meet the needs of those fabricators, contractors, interior designers and for the general retail market who were interested in purchasing granite slabs & tile according to their project, but still desired good service, quality and pricing.

Today, Aracruz International Granite has expanded its inventory to include Marble, Travertine, Quartzite, Soapstone and Onyx. We stock over 8000 slabs & tile from around the world in some 200 different color varieties at the most competitive price in the market. The quality and variety of our granite slabs, combined with our pricing and dependable service, make us one of the best stone sources in the Arizona market. We have plans to expand to multiple stores. Our Phoenix location is a warehouse /showroom and design center. Please visit our gallery of products. We can deliver to the Phoenix metro area for no additional shipping charges.

As a family based company, we recognize that for many the selection of granite is a big decision and sometimes can be a stressful experience. Many have found that our knowledge, friendliness and patience have helped make the experience as pleasant and stress-free as possible. Our main emphasis is on service and quality. Look to Aracruz Granite as a resource for technical information and specification assistance. For customers, Aracruz Granite is a stress free experience while taking them through there selection process which is why designers, builders, fabricators, contractors and developers entrust their clients to us! Many satisfied customers have insisted that their builder, contractor and friends consider Aracruz Granite when selecting natural stone slabs for their remodeling project.
